In accordance with the wishes of the Honorable Edward Raub, president of the common council, and of the Mayor's office, this department has prepared a form of resolution for the common council with reference to its selection of two members to the Auditorium Board, as provided by the Acts of the Indiana General Assembly of 1937.

When the council has determined which two of its members it desires to have serve on said Auditorium Board, the two selections may be inserted in the blank spaces provided in said resolution, and if passed by the common council, it is our opinion that the requirements of the 1937 auditorium law with reference to the city council will then have been accomplished.

By Mrs. Dowd:

GENERAL ORDINANCE NO. 57, 1937

AN ORDINANCE concerning the weighing, sale and delivery of fuel in the City of Indianapolis, Indiana, providing penalties for its violation and fixing a time when the same shall take effect.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE  
CITY OF INDIANAPOLIS, INDIANA:

Section 1. As used in this ordinance:

"Fuel means any anthracite or bituminous coal, coke or any manufactured or patented fuel not sold by liquid or metered measure.

"Retail fuel dealer" means any person, firm or corporation selling, or offering to sell and deliver, fuel in less than railroad car load lots.

Section 2. Every load of fuel sold in less than railroad car load lots by weight, and delivered by wagon, auto-truck or other vehicle, within the City of Indianapolis, shall be weighed by a duly licensed public weigher or deputy public weigher; a delivery ticket, as hereinafter provided, shall be issued by such public weigher for each such load and such delivery ticket shall be delivered by the driver or person in charge of the wagon, truck or other vehicle used in the delivery of such load to the purchaser thereof, or to his or their agent, at the time of delivery, and before any of the fuel is removed from the vehicle. When delivery is made, in case no person is present to receive such fuel, or if the purchaser or his or their agent cannot be located, then the delivery ticket shall be posted conspicuously at the place of the delivery before any of the fuel is removed from the vehicle.

Section 3. Any person, firm or corporation owning a scale or scales, in the City of Indianapolis, suitable for weighing fuel in load lots, when contained in any wagon, auto-truck or other vehicle, shall be eligible for appointment as public weigher in the City of Indianapolis, upon complying with the provisions of this ordinance.

Section 4. Any such person, firm or corporation desiring to be licensed as a public weigher, shall file an application, therefore, with the City Controller, on forms provided by such Controller, and shall set forth, therein, the location of the place of business for which such license is requested. Such applicant shall also execute and present with his application, a bond in favor of the City of Indianapolis, in the penal sum of One Thousand Dollars (\$1,000.00,) with surety as may be approved by the City Controller, conditioned for the faithful performance of such applicant's duties as a public weigher, and for the payment by such public weigher of any fine or fines which may be imposed upon him for any violation of said

applicant's duties as such public weigher. Upon compliance with the conditions above stated and upon payment to the City Controller of the sum of Forty Dollars (\$40.00,) as an annual license fee, the City Controller shall issue a license authorizing such applicant to act as a public weigher in the City of Indianapolis.

Section 5. Each public weigher shall have the power to appoint all necessary deputies to tend to such scales, but each such deputy public weigher shall furnish a bond in the same sum and conditioned in the same manner as that furnished by the public weigher. Each deputy public weigher or the public weigher appointing him, shall pay to the City Controller the sum of Ten Dollars, (\$10.00,) for an annual license fee as such deputy public weigher. Each public weigher appointing any deputy weigher shall be answerable for any and all acts of such deputy weigher in connection with the weighing of any fuel over the scale or scales of such public weigher; provided that such responsibility on the part of the public weigher shall not relieve the deputy weigher or liability for his own acts. Any public weigher shall have the right, at any time, after the appointment of a deputy by him, to cancel such appointment, it shall be the duty of such public weigher, upon cancelling such appointment, to immediately notify the City Controller that the appointment of such deputy has been cancelled, and thereupon such deputy shall cease to have any authority to weigh any fuel on the scales of such public weigher.

Section 6. Each public weigher licensed under the provisions of this ordinance shall provide his own scales which shall be of a kind or pattern approved by the inspector of weights and measures, and each such public weigher shall keep his said scales properly adjusted and repaired.

Section 7. Public weighers or deputy weighers shall, by virtue of their licenses, be entitled to weigh only over the scale or scales designated in any such license. Every public weigher acquiring a new scale or scales, after the issuance of his public weigher's license and desiring to weigh over such scale or scales, shall notify the City Controller of the location of such additional scale and thereupon such new location of such additional scale shall be entered by the City Controller on the original application for public weigher. If any public weigher changes the location of any scale, he shall immediately notify the City Controller and secure a transfer of such license for such new location, which transfer shall be issued upon payment of a transfer fee of \$5.00 and without further bond or license fee; provided, however, that any public weigher shall have the right, at any

time after the appointment of a deputy weigher by him, to assign such deputy to weigh over any scale or scales owned by him, them or it, the location of which is set forth in his license application or his supplementary license application.

Section 8. Public weighers owning a scale or scales suitable for weighing fuel loaded in wagons, trucks or other vehicles, shall weigh any such fuel when requested so to do by the person bringing the same to the scale of such public weigher. Each public weigher shall be present at his scale, either in person or by deputy, at all reasonable times during each day, excepting Sundays and holidays.

Section 9. Public weighers, when not the owners or sellers of the fuel weighed by them, shall be entitled to charge and receive a sum not in excess of twenty-five cents for each and every load or part of load of any fuel weighed by them over the scales of such public weighers.

Section 10. Each public and deputy weigher shall procure a seal, at his own expense, which seal shall be round in form not to exceed one and one-quarter inch in diameter of a type similar to a notary public's seal. The seal of a public weigher shall show his name around the upper half of the dies and his title around the lower half of the dies. The seal of a deputy public weigher shall have the name of the public weigher who appointed him, around the upper half of the dies, with his own name across the center of the dies and his title around the lower half of the dies. Such seal shall be stamped over the weights set forth therein upon each delivery ticket issued by such public or deputy weigher.

Section 11. Each public weigher shall issue a delivery ticket and a duplicate thereof, signed by him or his deputy, under his official seal, upon each of which tickets and duplicates thereof shall be written, or otherwise indicated, the name and address of the person, firm or corporation or association, selling or delivering such fuel and for whom the weighing was done; the gross weight of the load, the tare weight of the delivery vehicle, and the net amount in weight of the fuel being delivered in such vehicle; the name of the party who weighed it; the state in which the coal was mined, the name of the coal, brand or trade name, if any; the number of the vein or seam from which the coal was taken; the size and grade thereof, which size of all grades must be designated according to the openings in the screens over and through which each such size of coal is made at the place of production. In no case shall any public weigher state

in his delivery ticket the tare weight of any vehicle unless within three hours prior to the issuance of such delivery ticket, he shall have weighed the vehicle in such manner as to secure the weight as specified herein; provided, however, that in the case of a divided load, by which is meant a load containing more than one order for the same or different purchasers, no penalty shall be imposed by reason of the fact that the tare weight shown on the delivery tickets is only the original tare weight of the vehicle and equipment before loading, if in such case, each order has been weighed separately and the net weight of each separate order or delivery is correctly shown on the delivery ticket and such correct net weight is delivered. Each public weigher shall indicate on the delivery ticket the time that he weighed the vehicle before loading and the time that he weighed the vehicle after loading. One of such delivery tickets or the duplicate thereof, shall be delivered and surrendered by the person or persons in charge of the delivery of such load of fuel to the purchaser thereof, or to his agent or representative; and the other ticket or duplicate shall be retained by the person, firm or corporation making such sale for a period of not less than twelve months from date of sale. Each public weigher shall also keep and preserve a carbon copy of each delivery ticket issued. Each delivery ticket shall be numbered and accounted for, and the carbon copy shall be retained and preserved by such public weigher for a period of at least twelve months after weighing is performed. Such records shall be open to inspection by the fuel inspectors, inspector of weights and measures and his deputies and to the members of the police department of the City of Indianapolis.

Section 12. Any public weigher or any deputy public weigher who shall issue a delivery ticket giving a false weight or description of any fuel weighed by him, to any person, firm or corporation, upon conviction, shall be fined not more than \$100.00; and upon such conviction, the Mayor of the City of Indianapolis may revoke the license of such weigher or deputy weigher, and no license shall thereafter be issued to such weigher or deputy weigher in the same or succeeding year.

Section 13. Nothing contained in this ordinance shall be construed to prevent any retail fuel dealer from becoming public weighers and appointing deputy weighers to weigh the fuel being sold and delivered by such retail fuel dealer; and any delivery ticket issued by such retail fuel dealer, or the deputies appointed by same, covering fuel sold by such person, firm or corporation, shall be of the same effect as the delivery ticket issued by any other public weigher.

Section 14. The licenses herein provided for public weighers and deputy public weighers shall be for one year and shall expire on June 30. The applicants for licenses as public weighers or deputy public weighers, filed after the effective date of this ordinance, shall pay the license fee provided in this ordinance from its effective date, pro-rated to June 30, 1938.

Section 15. For the purpose of carrying out the provisions of this ordinance, the mayor is authorized and directed to appoint two fuel inspectors, who shall each be paid an annual salary of \$1800.00. Such fuel inspectors, under the direction of the City Controller of the City of Indianapolis, shall devote all of their time to the enforcement of the provisions of this ordinance, and they shall have the same power to make arrests as are now conferred by law upon the inspector of weights and measures of the City of Indianapolis.

Section 16. This ordinance shall be in full force and effect on and after January 1, 1938.

Which was read the first time and referred to the Committee on Public Works.
