

## Proceedings of the Indiana Academy of Science

## PROCEEDINGS OF THE INDIANA ACADEMY OF SCIENCE

The *PROCEEDINGS* OF THE INDIANA ACADEMY OF SCIENCE is a journal dedicated to promoting scientific research and the diffusion of scientific information, to encouraging communication and cooperation among scientists, and to improving education in the sciences.

*EDITOR:* **James W. Berry**, Department of Biological Sciences, Butler University, Indianapolis, Indiana 46208. Telephone: (317)-940-9344; FAX: (317)-940-9519; e-mail: jwberry@butler.edu

EDITORIAL BOARD: Hans O. Anderson (Indiana University, Bloomington); Robert F. Dale (Purdue University, West Lafayette); Rebecca Dolan (Butler University); Kara W. Eberly (St. Mary's College); Uwe J. Hansen (Indiana State University); Daryl R. Karns (Hanover College); N. Gary Lane (Indiana University, Bloomington); Wilton N. Melhorn (Purdue University, West Lafayette); Paul Rothrock (Taylor University); Thomas P. Simon (U.S. Fish & Wildlife Service, Bloomington); Michael R. Tansey (Indiana University, Bloomington); Robert D. Waltz (Indiana Department of Natural Resources, Indianapolis); J. Dan Webster (Hanover College); Harmon Weeks (Purdue University, West Lafayette); John O. Whitaker, Jr. (Indiana State University)

## THE INDIANA ACADEMY OF SCIENCE

PRESIDENT: Edwin R. Squiers (Taylor University)
PRESIDENT-ELECT: Terry West (Purdue University)

TREASURER: Edward L. Frazier (Indianapolis)

SECRETARY: Nils I. Johansen (University of Southern Indiana)

EXECUTIVE DIRECTOR: Nelson R. Shaffer (Indiana Geological Survey)

ARCHIVIST: Holly Oster (Indiana State Library)

EXCHANGE ITEMS: Items sent in exchange for the *Proceedings* and correspondence concerning exchange arrangements should be sent to the Indiana Academy of Science, John S. Wright Memorial Library, 140 North Senate Avenue, Indianapolis, Indiana 46204.

Cover photo: Deeply incised and meandering channel on upstream edge of Flat Rock, Hindostan Falls, Martin County, Indiana. The channel is about 0.5 m at its deepest and becomes shallower down-valley. It is proposed that these channels on the surface of Flat Rock were formed by glacial meltwater under a confining layer of ice near the margin of a pre-Wisconsinan glacier. (See related paper on page 1.)

Publication date: 19 December 2001

This paper meets the requirement of ANSI/NISO Z39.48-1992 (Permanence of Paper).
