

INDEX
to the
PROCEEDINGS of the INDIANA ACADEMY OF SCIENCE
Volume 118
2009

Abundance, fish	88	Crayfish medial giant axon	135
Acetylation	107	Cyanobacteria	11
Action currents	134	<i>Cypropedium candidum</i>	39
Adams County, Ohio	83	Dearborn County	84, 139
Agricultural watershed	1, 13	Delaware County	2, 22, 39
Anderson, Alan	114	Dempsey, Todd	76
Anoxic conditions, lake	1	DFIRST instrumentation	115
Athens County, Ohio	83	Disparlure	76
Ayers, Paul D.	114	Dissolved oxygen concentration	1, 4
Bacteria in freshwater	13	Distribution records, plants	31
Badger, Kemuel S.	39	Dry-mesic upland forest	58
Batavia, Ohio	85	Duennes, Michelle	139
Bennett Wetland Complex	39	Eagle Creek watershed	13
Biomass, fish	88	EC & FC concentrations	16
Bluffton Till Plain	22	Edgin, Ed	120
Botanical inventory	120	Edinger, John E.	120
Brood X, cicadas	85	Endangered species	139
Brood XIV, cicadas	85	<i>Escherichia coli</i>	13
Brown County	84	<i>Etheostoma exile</i>	190
Brown County Hills	77	European gypsy moth	76
Brown County, Ohio	83	Eutrophication	1
Browse preferences, deer	96	Export rate, bacteria	13
Browsing	96	Faust, Mark	114
Butler County, Ohio	83	Fayette County	139
Butler University	143	Fayette County, Ohio	83
Camp Atterbury, Indiana	114	Fecal bacteria contamination	13
Campbell, M.A.	13	Fecal coliform export	13
Carabidae	139	Fens	39
<i>Cardamine impatiens</i>	31	Fish assemblages	187
Celi, Diana E. Fiallos	1	Fish, historic collection	143
Central Till Plain	22	Fisher, Brant E.	88
Champaign County, Ohio	83	Flora, Indiana	39
Charles C. Deam Wilderness	77	Flora, Parke County	55
Chlorophyll <i>a</i>	1	Floristic Quality Index	39
Cicadas, Brood XIII	81	Floyd County	31
<i>Cicindela duodecimguttata</i>	140	Forest vegetation	22
<i>Cicindela marginipennis</i>	139	Franklin County	139, 141
<i>Cicindela punctulata</i>	140	Free amino acids	108
<i>Cicindela repanda</i>	140	Frog sciatic nerve	135
<i>Cicindela sexguttata</i>	140	<i>Fundulus</i>	88
<i>Cicindela tranquebarica</i>	140	<i>Fundulus diaphanus</i>	190
Clark County	31, 84	<i>Fundulus dispar</i>	190
Clermont County, Ohio	83, 84	Gallia County, Ohio	83
Clinton County, Ohio	83	Georgia, fish	143
Coliform bacteria	13	Gilbert, Carter R.	143
Concentration of ammonia	1	Grassland communities	120
Cortright, Beth	139	Greene County, Ohio	83
County records, vascular plants	31, 39	Gypsy moth pheromone	76
Crawford County	31, 83, 84	Hamilton County, Ohio	83, 84, 141

Harrison County	31, 84	Mesocosm evaluation, fish	88
Hay, Oliver P.	143, 149	Michaelis, Teresa	22
Hemlock groves	58	Midwest watersheds	13
Henry County plants	39	Military training event	114
Herbivory	96	Mississippi, fish	143
Hess, Benjamin R.	39	Mitchell Karst Plain	31
Hicks, David J.	22	Monroe County	77, 84
Highland County, Ohio	83	Montgomery County, Ohio	83
Highland Rim Natural Region	31	MRI	134
Hillside seeps	58	Nerve	134
Hoelmer, Andrew	83	Nitrogen limiting conditions	11
Hoosier National Forest	77	Noble, Margaret	83
Horner, David A.	114	Normant, Lynne	107
Howard, Heidi R.	114	Northern starhead topminnow	88
Human median nerve	136	<i>Notropis heterodon</i>	190
Hydrocotyle ranunculoides	31	<i>Notropis heterolepis</i>	190
Hyperentrophic state, lake	1	Nutrients	1
Hypolimnion	1	Ochsner, William R.	114
Illinois	120	<i>Odeocoileus virginianus</i>	96
Impact assessment	114	Off-road traffic	114
<i>Impatiens balsamina</i>	31	Old fields	59
Indiana University	143	Parke County, flora	55
Indiana vascular plants	31	Penikese	143
Indiana water quality	5	Periodical cicadas	81, 83
Indianapolis	14	Peripheral nerve activity	134
Invasive species	187	Phase shift	134
<i>Ipomoea quamoclit</i>	36	Pheromone flakes	76
IU Southeast Herbarium	31	Pierce, Sarah	139
Jasper County, Illinois	120	Pike County, Ohio	83
Jefferson County	31	Plant communities, Henry County	39
Jones, Sean C.	120	Popovičová, Jarka	1
Jordan, David Starr	143, 146	Porter County	81
Kansas, fish	143	Powder Horn Lake	189
King, Brad	107	Prairie chickens	120
King, Daniel	107	Prairie Creek Reservoir	1
Knobstone Escarpment	31	Prairie restoration	120
Kokiwane Nature Preserve	22	Prairie Ridge State Natural Area	120
Kritsky, Gene	81, 83, 139	Presettlement forests	27
<i>Kyllinga gracillima</i>	36	Protein digests	109
Labeling	107	Protein interactions	107
Lake County	81	<i>Quercus</i>	96
Lake management	1	<i>Ranunculus parviflorus</i>	36
Land use history	22	Richmond, Indiana	139
Laporte County	81, 89	Rocky Hollow	55
Lawrence County, Ohio	83	Ross County, Ohio	83
Loveland, Ohio	85	Roth, Bradley J.	134
<i>Lymantria dispar</i>	76	Rothrock, Paul E.	39
<i>Magiicada</i>	81, 83	Ruch, Donald G.	39
<i>Magiicada cassini</i>	81, 83	Salamonie River	22
<i>Magiicada septendecim</i>	81, 83	Sandstone cliffs	58
<i>Magiicada septendecula</i>	81, 83	Scioto County, Ohio	83
Magnetic resonance imaging	134	Scott, Richard	55
Mass spectrometry	107	Secchi disk transparency	1
Mating disruption	76	Sedge meadows	39
Maxwell, Richard H.	31	Shadow brood XIV	85
<i>Mazus pumilus</i>	36	Shawnee Hills Natural Region	31
Mesic floodplain forest	58	<i>Sherardia arvensis</i>	36
Mesic forests	27	Smith, Jessee	81, 139
Mesic upland forest	58	Smithsonian	143

Soluble reactive phosphorus	1	Vegetation impact	114
South Carolina, fish	143	Vehicle impacts	114
Southern Indiana plants	31	Vehicle impacts	114
Squid giant axon	135	Vehicle tracking system	114
State records, plants	31	Vidon, P.	13
Storey, Daniel	107	Vigo County	84
Sugar Creek	57	Wabash County	22
Sullivan, Patricia M.	114	Wakeland, Bruce	96
Sutton, Trent M.	88	Warren County, Ohio	83
Swihart, Robert K.	96	Washington County, Ind.	84
Thomas, William E.	31	Washington County, Ohio	83
Tiger beetles	139	Water quality	1
Tiger Musky	190	Watershed management	20
Tippecanoe County	89	Wayne County	84, 139
Tipton Till Plain	14	Weigel, Dale R.	76
Torke, Byron G.	39	Western mosquitofish	88
Troop tracking system	114	Wet floodplain forest	58
Trophic parameters	5	Wetland complex	39
Trophic status	1	White River watershed	3
Troutman, Roy	83	White-tailed deer	96
Tucker, Gordon C.	120	Whole proteins	109
Turkey Run State Park	55	Wijesinghe, Ranjith S.	134
Types, fish	143	Willink, Philip W.	187
Union County	139	Wolf Lake, Illinois	187
Urban degradation	187	Wolf Lake, Indiana	187
Vascular flora, Henry County	39	Woody browse preferences	96
Vascular plants	31	Zeiber, Rebecca A.	88
Vegetation cover	114		

INSTRUCTIONS TO AUTHORS

(revised May 2009)

General information.—Manuscripts and all correspondence should be sent to the Editor. To be eligible for publication in the *Proceedings* at least one author must be a member of the Academy. Submission of a manuscript to the Editor implies that it has not been sent to another publication, nor has it been published elsewhere. If it is accepted for publication in the *Proceedings*, it may not be republished without the written consent of the Academy.

All manuscripts are evaluated by referees. Manuscripts may be submitted by e-mail or on a CD, or you may submit three paper copies of the manuscript. Figures in hard copies should be approximately the size that they will be printed in the *Proceedings*. They may be photocopies. After the manuscript has been accepted, the author will be asked to submit a paper copy of the manuscript (the electronic version and one paper copy). Galley proofs will be sent to the primary author for approval and correction.

Voucher specimens and permits.—Voucher specimens of species used in scientific research should be deposited in a recognized scientific institution. Authors must indicate that the collection of specimens, especially threatened or endangered species, was authorized by the appropriate governmental organization. Those making identification of specimens should be identified.

Style.—Do not use right or full justification. Also, use a non-proportional font (e.g., Courier, but not Times Roman).

Running head.—The author's surname(s) and an abbreviated title should be typed all in capital letters and must not exceed 60 characters and spaces. The running head should be placed near the top of the title page.

Title page.—The title page should include (1) the title in capital letters, (2) each author's name and address, (3) the running head, and (4) the complete name, address, and telephone number, FAX number, and e-mail address of the author with whom proofs and correspondence should be exchanged.

Abstract.—All manuscripts have an abstract which should summarize the significant facts in the manuscript. The "ABSTRACT" heading in capital letters should be placed at the beginning of the first paragraph set off by a period. Use complete sentences, and limit the abstract to one paragraph and no more than 250 words.

Keywords.—Give 3–5 appropriate keywords.

Text.—Double-space text, tables, legends, etc. throughout, printing on only one side of the page. Three categories of headings are used. The first category (METHODS, RESULTS, etc.) is typed in capitals, centered, and on a separate line. The second (lower) category of heading, in bold type, begins a paragraph with an indent and is separated from the text by a period and a dash. (This paragraph begins with an example of this heading.) The third heading category may or may not begin a paragraph, is italicized, and is followed by a colon. (The paragraph below is an example.) The metric system must be used unless quoting text or referencing collection data.

Citation of references in the text: Cite only papers already published or in press. Include within parentheses the surname of the author followed by the date of publication. A comma separates multiple citations by the same author(s) and a semicolon separates citations by different authors, e.g., (Smith 1990), (Jones 1988; Smith 1993), (Smith 1986, 1987; Smith & Jones 1989; Jones et al. 1990).

Conclusions.—Do not have a conclusions section. This information should be in either the abstract or the discussion.

Literature cited.—Use the following style, and include the full unabbreviated journal title. Repeat the name for multiple references by the same author. Note that book titles have the first letter of each word capitalized.

Walter, J. & B. Hallet. 1979. Geometry of former subglacial water channels and cavities. *Journal of Glaciology* 23:335–346.

Walter, J. 1992. The significance and complexity of communication in moths. Pp. 25–66, *In* *Insect Communications: Mechanisms And Ecological Significance*. (P.N. Work & J.S. Rivers, eds.). Princeton University Press. Princeton, New Jersey.

Footnotes.—Footnotes are permitted only on the first printed page to indicate current address or other information concerning the author. These are placed together on a separate page at the end of the manuscript. Tables and figures may not have footnotes.

Tables.—These should be double-spaced, one table to a page and numbered consecutively. Most tables contain only three horizontal lines (see recent issues for examples). Do not use vertical lines, boxes, or shading. Include all pertinent information in the table legend at the top of the table (no footnotes).

Illustrations.—Figures submitted electronically should be at least 300 dpi. You may pre-submit illustrations to Allen Press to be certain that they meet publication standards. Go to <http://verifig.allenpress.com>. The password is allenpresscmk. Figures should be arranged so that they fit (vertically and horizontally, including the legend) the printed journal page, either one column or two columns, with a minimum of wasted space. When reductions are to be made by the printer, pay particular attention to width of lines and size of lettering in line drawings. Multiple photos assembled into a single plate should be mounted with only a minimum of space separating them. In the case of multiple illustrations mounted together, each illustration must be numbered (1, 2, etc.) rather than given letter (a, b, etc.) designations. In paper manuscripts for review, photocopies are acceptable, and should be reduced to the size that the author prefers in the final publication. Color plates can be printed; but the author must assume the full cost, currently about \$600 per color plate.

Legends for illustrations should be placed together on the same page(s) and separate from the illustrations. Each plate must have only one legend, as indicated below:

Figures 1–4.—Right chelicerae of species of *Centruroides* from Timbuktu. 1. Dorsal view; 2. Pro-lateral view of moveable finger; 3. *Centruroides* holotype male; 4. *Centruroides* female. Scale = 1.0 mm.

Page charges and reprints.—There are no page charges, but at least one of the authors must be a member of the Academy. Corrections in proof pages must be restricted to printer's errors only; all other alterations will be charged to the author (currently \$3 per line).

Reprints are available only through the Allen Press and should be ordered (with payment) when the author receives the proof pages.

CONTENTS

Proceedings of the Indiana Academy of Science

Volume 118

Number 2

2009

Chemistry

- Acetylation labeling mass spectrometry: A method for studying protein conformations and interactions** by Brad King, Lynne Normant, Daniel King, and Daniel Storey..... 107

Environment

- Vehicle impacts on vegetation cover at Camp Atterbury, Indiana, USA: Part 3. Predicting cumulative impact of a military training event** by Alan B. Anderson, Paul D. Ayers, Heidi R. Howard, Patricia M. Sullivan, David A. Horner, Mark Faust and William R. Ochsner.... 114

Botany

- Botanical inventory of Prairie Ridge State Natural Area, Jasper County, Indiana** by Gordon C. Tucker, Bob Edgin, Sean C. Jones and John E. Ebinger..... 120

Zoology

- Magnetic resonance imaging technique and peripheral nerve activities** by Ranjith S. Wijesinghe and Bradley J. Roth..... 134
- The status of *Cicindela marginipennis* (Coleoptera: Carabidae) in southeastern Indiana** by Gene Kritsky, Beth Cortright, Michelle Duennes, Jesse Smith and Sarah Pierce 139
- The "lost" Jordan and Hay fish collection at Butler University** by Carter R. Gilbert 143
- A century of shifting fish assemblages in Wolf Lake, Illinois-Indiana** by Philip W. Willink 187
- Frog pond, fish pond: Temporal co-existence of crawfish frog tadpoles and fishes** by John G. Palis..... 196
- An historic record of the red-cockaded woodpecker in Indiana** by Steven G. Platt, Christopher M. Ritzi and Thomas R. Rainwater 200
- The first records of the eastern small-footed bat (*Myotis leibii*) in Indiana** by Nickolas S. Gikas, Justin G. Boyles, Arthur A. Zurcher, Brianne L. Walters and John O. Whitaker, Jr. 203

Index

- Index to Volume 118 (2009)**..... 205
