Above: Media specialists and students have breakfast and talk about Inspire with State Representative Gerald Torr.

During National Library Week the media specialists of the Carmel Clay schools gathered together along with students from Orchard Park Elementary to thank their Indiana legislators for Inspire. The students demonstrated the many uses of Inspire to State Senator Teresa Lubbers and State Representative Gerald Torr. Orchard Park Media Specialist Liz Quakenbush helped the students plan and refine their presentation, but as the photos show, the students handled this instructional session while the adults enjoyed breakfast.
