*To the Honorable President and Members of the Common Council of the
City of Indianapolis, Indiana:*

Gentlemen—

I have this day the honor of submitting to your honorable body, pursuant to the Statutes of the State of Indiana, the proposed budget of all of the departments of government of the City of Indianapolis for the year 1929, together with the proposed tax levies of the General Fund and each separate fund, all of which is hereto attached and which has been transmitted by and with the recommendation of the Honorable Sterling R. Holt, City Controller, as required by law.

In submitting this budget and these proposed levies for your consideration, I am pleased to inform your honorable body that much careful consideration has been given to the various items of

the budget and the proposed levies by all of the departments of the city government as well as the City Controller and his first assistant, Mr. A. B. Good, and the budget as submitted, together with the proposed tax levies, have my approval and it is recommended that the Council pass the same as submitted.

The City Controller has laid before me his letter transmitting the budget and levies and you gentlemen will find therein contained explanations of certain of the items involved and these explanations I am sure are worthy of your consideration. The various departments of the city government will also be very glad to submit any further explanations or recommendations to your honorable body should you desire the same. In justice to all of the departments of the present administration, it is proper for me to say to you gentlemen with respect to their requests and reductions as made in the budget, that the condition of the city has been and is now such that their requests were so urgent and needed that it was very difficult under the circumstances to make the reductions which are made and that it is to the credit of these departments that they recognize the various needs as outlined in their requests. However, the reductions were necessary in this budget in view of the fact that it was not the desire of this administration to further increase the tax levy.

In addition to the budget as set forth, I wish to recommend to your honorable body that there be created a Contingent Emergency Fund of approximately \$5,000—not exceeding \$10,000—to be under the control and administration of the Mayor of the city, the City Controller and the President or member of the Council, and that an amendment be drawn and adopted by the Council to that effect. It would be impossible to outline needs of such a fund which may or may not occur, but it is well known that emergency needs arise where such a fund would be available and I am sure if properly administered, would be of considerable benefit to the city during the coming year.

I am calling special attention to that part of the letter of the City Controller referring to the calculations of the needs of the sinking funds of the city for the next twelve years prepared by the Civic Affairs Committee of the Chamber of Commerce and presented by their representative, Mr. Book. Accepting these calculations as accurate with respect to the City Sinking Fund, Flood Prevention Sinking Fund and War Memorial Sinking Fund, we believe this program respecting these important subjects will entirely meet the sit-

Very truly yours,

COMMUNICATIONS FROM CITY OFFICIALS

August 6, 1928.

To the Honorable L. Ert. Slack, Mayor, and the Members of the Common Council of the City of Indianapolis, Indiana:

Gentlemen—

In compliance with Section 10,306, Burns Revised Statutes of 1926, I submit herewith the budget estimates for the year 1929. The various boards and departments operating under the general fund presented their estimates of cost of operation for the coming year. These have been carefully gone over and material reductions made, as shown by my allowances. In making these reductions I had in mind the policy of economy and yet with this thought in mind the net increase in appropriations as recommended by me amounts to \$384,080.54. Taking the general fund appropriation as a whole, the increases are accounted for as follows:

Salary Increases	\$ 12,520.00
Increased Personnel	124,344.54
Contractural Items	141,887.00
Material and Supplies	43,197.00
Equipment	62,132.00

These are explained as follows: \$9,500.00 of the "salary increases" are in the City Engineer's Office, and I believe are necessary.

Of the \$124,344.54 increased personnel, \$28,243.75 is in the Fire Department and provides for two additional captains, three lieutenants, and eleven first grade privates. The item of chauffeurs is, however, reduced three men. \$27,091.50 in the Police Department provides for twelve motorcycle policemen and one additional police officer. \$26,621.50 in the City Engineer's Office provides for an additional force to repair and maintain flood walls. \$40,025.28 in

the Street Commissioner's Office, \$32,405.28 of which is for temporary labor in the Street Cleaning Department. The balance is for additional clerks here and there in the different departments.

Of the \$141,887.00 increased contractual items, \$41,280.00 is to provide for the coming election, and \$113,450.00 is for lights and water contract. These items have been reduced in some of the other departments which reduces the net figure.

Of the \$43,197.00 of material and supplies, \$10,235.00 in the Gamewell Division is for new traffic signals and the replacement of some of the old traffic heads in order to reduce maintenance cost. \$14,500.00 for the Fire Department is for fire fighting supplies and parts for the repair of equipment. \$12,495.00 to the City Engineer is for the repair of bridges and maintenance of flood walls. The other increases are minor.

Of the \$62,132.00 of equipment, the principal items are:

Fire Department	-----	\$24,250.00
Police Department	-----	11,480.00
Street Commissioner	-----	18,700.00

The Fire Department proposes to buy four or five small cars and some fire hose which is very necessary.

The Police Department proposes to buy seven cars, four motorcycles and filing cabinets for the Bertillon Department.

The Street Commissioner proposes to buy trucks and other motor equipment necessary for the operation of his department.

The appropriation of \$4,882,781.12, as recommended will require a sixty-five cent (\$.65) general fund levy based upon a valuation of \$675,313,000.00 and appears to be a very large increase when we look only at the present levy of fifty-six and eight-tenths cents (\$.568), without taking into consideration the action of the State Tax Board reducing the 1927 levy. While, at the same time the city total budget was not reduced to conform to the reduced levy whereby the policemen and firemen salaries were permitted to stand the increase of over substantially \$160,000.00.

It should be explained in this connection that at the close of this year's operations the city will have incurred an indebtedness, due to increased pay to police and firemen, and insufficient appropriation

for water and light of approximately \$300,000.00, which would amount to at least four and one-quarter (\$.04 1/4) cents that should have been added to this year's levy. The coming city election adds approximately six-tenths of a cent (\$.006). The total of all of these amounting to sixty-one and sixty-five hundredths cents (\$.6165). The situation presents the problem of undertaking to operate under a budget of an indebtedness program which necessitated a tax levy of \$.6165 in order to meet it, whereas the levy was only \$.568. So, in the final analysis the net increase for general fund purposes for the coming year amounts to approximately 3 cents over what the actual levy should have been for 1928.

Below are the tax rates I recommend for the other departments of the city. The table shows the rate requested, the present rate and my recommendation:
