*To the Mayor and Common Council of the City of Indianapolis:*

The gutters of Davidson street are perfectly overgrown with grass, so that after any considerable fall of rain the water cannot run off fast enough, and there is a continual danger that the water may overflow and run in the adjoining cellars. Besides, the ditch on Ohio street, which has to receive the waters of Davidson street, and from the west side that cross Davidson, is even too narrow to take up the water of Davidson street alone. We therefore call your attention to this subject, and pray your honorable body to release us of this evil as soon as practicable.

OFFICE BOARD OF POLICE, }  
Indianapolis, Aug. 2, 1869. }

*To the Mayor and Common Council of the City of Indianapolis:*

GENTLEMEN:—The Board of Police would recommend to your honorable body that the sum of five hundred dollars be appropriated for the employment and payment of a special detective, to be employed in the investigation of the robberies and burglaries being perpetrated in the city.

It is believed that that amount of money judiciously expended in such a manner, would be of benefit and advantage to the citizens, as the fact that all our regular police force are required to appear in uniform, and no "extras" or "specials" are allowed, as in former years, makes it more difficult to detect and arrest the parties concerned in the numerous robberies and violations of law, now so common.

By unanimous consent, Mr. Newman, from the Committee on Judiciary, made the following report:

INDIANAPOLIS, Aug. 2, 1869.

*To the Mayor and Common Council of the City of Indianapolis:*

The Judiciary Committee to whom was referred a motion to authorize Thomas & Bro. to build a wooden awning on the corner of East and Ohio streets, have had the matter under consideration, and ask leave to report that they see no objection to authorizing the erection of such awning at that point. They therefore recommend the granting of the motion, subject to the right of the city authorities at a proper time to have the same removed, if found necessary or proper. The same to be erected under the inspection of the Street

Commissioner, and according to his direction, so as to occasion the least obstruction of the view on the street.

Respectfully submitted.

JOHN S. NEWMAN, } Committee.  
AUSTIN H. BROWN, }

Which was concurred in.

Also, the following report :

INDIANAPOLIS, Aug. 2, 1869.

To the Mayor and Common Council of the City of Indianapolis :

The Judiciary Committee to whom was referred Ordinance No. 39, entitled, "An ordinance in relation to the vacation of streets and alleys," have had that matter under consideration, and ask leave to report that streets and alleys, by being platted as such on the city plat and additions thereto, are dedicated to the use of the public, and that adjoining property holders own the title in fee to the centre of the street or alley; that so long as the public have any use for the right of way through such street or alley, it should not be vacated—the vacation would violate the spirit of the dedication to public use. And if such street or alley shall have ceased to be of any public use, for passage of the public over or through it, and it should be deemed best to vacate it, it would be an extortion on the adjoining property holders, and would violate their rights, to require them to pay the city for it. If of no public use the intent of the dedication has failed, and the street or alley belongs to adjoining property holders without paying for what would be their private property.

Respectfully submitted.

JOHN S. NEWMAN, } Committee.  
AUSTIN H. BROWN, }

Which was concurred in.
