June 24, 1935.

Mr. Walter C. Boetcher,  
City Controller,  
City of Indianapolis, Indiana.

Dear Sir:

We would like to replace our present Monroe calculating machine with a more improved model.

The machine that we are considering in trade for our old machine, which is eleven years old and necessitates adjustment and new parts at frequent intervals, is a factory rebuilt, guaranteed machine. We feel that by buying this factory rebuilt model, that we will more than save the difference over a period of several years, in the cost of repairs.

The Monroe Company will allow us \$125.00 trade-in for our old machine and the price of the new one is \$250.00, leaving a balance, to be paid out of our Equipment Fund, of \$125.00. We feel that this is a very excellent proposition and would like to take advantage of this offer.

There is at present a balance of \$29.64 in our Equipment Fund, No. 72, and in order to make this purchase possible it is necessary that we have the above difference of \$125.00 transferred to Fund 72 from various other of our funds.

Accordingly, will you please have transferred from the unex-
