

ADDITIONS TO THE VASCULAR FLORA OF PARKE COUNTY, INDIANA

REXFORD F. DAUBENMIRE, Butler University

This list of 205 plants is a continuation of a list of 63 plants from Parke County published in the preceding volume. A specimen of each species listed is deposited in the Herbarium of Butler University, Indianapolis, Indiana. While many of these species have previously been reported from this county, those reports were not, in the knowledge of the writer, substantiated by specimens. The nomenclature follows that of Gray's New Manual, 7th edition.

In the previous list the report of *Houstonia lanceolata* was an error and should be referred to as *H. purpurea*.

Acer negundo, *A. saccharinum*, *A. saccharum nigrum*, *Achillea millefolium*, *Actaea alba*, *Acalypha gracilens*, *Actinomeris alternifolia*, *Agastache nepetoides*, *Agrimonia parviflorum*, *A. gryosepala*, *A. mollis*, *Alisma plantago-aquatica*, *Allium cernuum*, *A. canadense*, *Ambrosia trifida*, *A. artemissifolia*, *Amphicarpa pitcherii*, *Anthemis cotula*, *Apios tuberosa*, *Apocynum cannabinum*, *Aplectrum hyemale*, *Aralia nudicaulis*, *Arisaema draconitum*, *Asclepias phytolaccoides*, *A. incarnata*, *A. verticillata*, *A. tuberosa*, *Asimina triloba*, *Aster ericoides villosa*, *Benzoin aestivale*, *Bidens bipinnatifida*, *B. trichosperma*, *Brassica nigrum*, *Cacalia atriplicifolia*, *Carya ovata*, *Caulophyllum thalictroides*, *Celastrus scandens*, *Cephalanthus occidentalis*, *Ceris canadensis*, *Chelone obliqua*, *Chenopodium album*, *Chrysanthemum leucanthemum*, *Cicuta maculata*, *Clematis virginiana*, *Chenopodium boscianum*, *Cerastium nutans*, *Centunculus minimus*, *Corallorrhiza maculata*, *Cynoglossum virginianum*, *Datura tatula*, *Daucus carota*, *Desmodium illinoense*, *D. nudiflorum*, *D. grandiflorum*, *D. rotundifolium*, *Dianthera americana*, *Dioscorea villosa*, *Diospyros virginiana*, *Dirca palustris*, *Epilobium adenocaulon*, *Erigeron canadense*, *E. philadelphicus*, *E. ramosus*, *Euphorbia preslii*, *E. corallata*, *Evonymus atropurpureus*, *E. obovatus*, *Eclipta alba*, *Fagus grandifolia*, *Fraxinus pennsylvanica lanceolata*, *F. americana*, *F. rofunda*, *F. quadrangulata*, *Galium aparine*, *Gaura biennis*, *Gerardia virginica*, *Geum canadense*, *G. strictum*, *Gnaphalium purpureum*, *Gymnocladus dioica*, *Heleopsis scabra*, *Helianthus microcephalus*, *H. decapetalus*, *H. tuberosus*, *Hemerocallis fulva*, *Hypericum punctatum*, *H. prolificum*, *H. lanceolatum*, *H. virgatum*, *Impatiens biflora*, *I. pallida*, *Impatiens hederacea*, *I. pandurata*, *Juglans cinerea*, *Juniperus virginiana*, *Lactuca scariola*, *Lappula virginiana*, *Lepidium virginianum*, *Lеспедеза violacea*, *Linum virginianum*, *Lippia lanceolata*, *Liriodendron tulipifera*, *Lobelia cardinalis*, *Lycopus uniflorus*, *L. americana*, *Lysimachia nummularia*, *Medeola virginiana*, *Medicago lupulina*, *Melilotus alba*, *Menispermum canadense*, *Mentha arvensis canadensis*, *M. piperita*, *Mimulus ringens*, *Mollugo verticillatus*, *Monarda fistulosa*, *Morus rubra*, *Nepeta cataria*, *Oenothera muricata*, *Onoclea struthiopteris**, *Ostrya virginiana*, *Oxybaphus nyctagineus*, *Panax quinquefolia*, *Pastenaca sativa*, *Phlox paniculata*, *Physocarpus*

Proc. Ind. Acad. Sci. 40: 75-76. (1930) 1931.

*This rather rare species was found growing quite abundantly along Sugar Creek in and above Turkey Run State Park. It was evidently referred to as *Aspidium noveboracense* in both reports of the ferns of Turkey Run.
