

PROGRAM OF THE SECTION ON MATHEMATICS

Chairman: THOMAS E. MASON, Purdue University

1. *House Bill No. 246, Indiana State Legislature, 1897. Will E. Edington, DePauw University.

2. Synthetic methods in differential geometry. J. H. Butchart, Butler University.

3. Some geometric applications of algebraic correspondences. C. G. Schilling, Purdue University.

4. A new approximation method for linear differential equations with rational coefficients. Cornelius Lanczos, Purdue University.

*Papers published in this volume.
