

INDEX

- Abbott, R. B., et al, on Acoustical properties of wood, 179; Conductivity of circular openings in Helmholtz resonators, 182.
- Academy foundation, Report on, xiii.
- Academy trustees, Report of, xiii.
- Acids, Bacteriostatic properties of, 42.
- Acoustical properties of wood, 179.
- Adrenal cortex of mammals, 202.
- Adsorption by Prussian blue, 94.
- Aeronautical training, 196.
- Agaricaceae of the Chicago region, 84.
- Algonquian language, 34.
- Allen, D. E., et al, on Conductivity of circular openings in Helmholtz resonators, 182.
- Alpha particle bombardment of magnesium, 191.
- Amino alcohols, Preparation of, 101.
- Anatomy of *Eumeces*, 233.
- Angel Mounds, Excavation of, 22.
- Antiseptics, Effect on enzymatic action, 105.
- Archeology, Divisional Chairman for 1940, xvii.
- Archeology, Section on, 16-40.
- Atlal, The problem of the, 17.
- Attitudes of teachers and pupils, 196.
- Auditing committee, Report of, ix, xiii.
- Bacteria in fungal cultures, 75.
- Bacteriology, Divisional Chairman for 1940, xvii.
- Bacteriology, Section on, 41-61.
- Bacteriostatic properties of acids, 42.
- Beghtel, Floyd E., on Elymus, 86.
- Beta and gamma rays in radioactive substances, 180.
- Beta spectra, 180.
- Binkley, W. W., et al, on The action of esters, 117.
- Biological Survey Committee, Report of, ix.
- Birch bark records of the Chippewa, 38.
- Black, Glenn A., on Excavation of Angel Mounds, 22.
- Bonding Committee, Report of, xiii.
- Botany, Divisional Chairman for 1940, xvii; Section on, 62-93.
- Breeze, Fred J., Papers by, 118.
- Brueckner, A. H., on Equine encephalomyelitis, 54.
- Bryophytes, 64.
- Buckley, W. T., on Sun spots and temperature, 159.
- Bushnell, T. M., on Indiana soils, 151.
- Butler, Amos W., Library of, xvi.
- Butylamine, Action of esters on, 117.
- Cable, R. M., on Egg production in trematodes, 200.
- Calcareous incrustation, 169.
- Cambrian minerals in Wisconsin, 145.
- Campbell, A. W., et al, on Adsorption, 94.
- Campbell, B. K., et al, on Amino alcohols, 101.
- Campbell, K. N., et al, on Amino alcohols, 101.
- Cannon, Dominic Joseph, Memorial, 1.
- Chemiluminescences, Photographic determination of, 115.
- Chemistry, Divisional Chairman for 1940, xvii; Section on, 94-117.
- Chicken, Temperature regulation in, 200.
- Chippewa, Birch bark records of, 38.
- Chlorosulfonic acid, Esters of, 117.
- Cigarette smoking, Effects on body functions, 199.
- Clark, Arnold F., et al, on The Indiana University cyclotron, 179.
- Coleman, Lillian T., et al, on The Schwarzschild equation, 181.
- Committees for 1939, vii, viii.
- Conductivity in Helmholtz resonators, 182.
- Constitution and by-laws, Note on, vi.
- Cottman, Evans W., on Chemiluminescences, 115.
- Council meeting, Minutes of, ix.
- Cowles, Henry C., Memorial, 1.
- Crop yields and weather, 118.
- Cubic hypersurfaces, 175.
- Cyclotron at Indiana University, 179.
- Davis, J. J., on Insects of Indiana for 1939, 201.
- Dawson, Ray F., on Nicotine in tobacco, 91.
- Degering, Ed. F., et al, on Bacteriostatic properties of acids, 42; The action of esters, 117.
- Delaware dialect, 34.
- Delaware Indians, Culture of, 28.
- De Vol, Charles E., on Pteridophytes of China, 62.
- Dewart Lake, Survey of, 201.
- Dickson, George, et al, on Half-lives of artificial radioactivity, 180.
- Differential equations, Integration of, 177.
- Dirichlet problem for the equation of the vibrating string, 176.
- Divisional Chairmen, Election of, xvii; for 1939, vii.
- Doran, R. L., et al, on Alpha particle bombardment of magnesium, 191.
- Dragonflies of Indiana, 201.

- Drosophila*, Radiation of, 215.
- Duffin, Richard J., on The Dirichlet problem for the equation of the vibrating string, 176.
- Earth rotation as a deflective factor, 119.
- Edington, Will E., on Differential equations, 177.
- Editor, Report of, ix, xiv.
- Editorial code, Note on, vi.
- Education in home economics, 197.
- Egg laying, Respiratory movements during, 231.
- Egg production in trematodes, 200.
- Elymus, Studies on, 86.
- Embryology of the frog, 209.
- Encephalomyelitis, 54.
- Entomologists, Meeting of, xxiii.
- Enzymatic action in the presence of anti-septics, 105.
- Equine encephalomyelitis, 54.
- Esters of chlorosulfonic acid, 117.
- Ethnology of the Ottawa, 23.
- Eumeces*, Anatomy of, 233.
- Executive committee, Minutes of, xiii.
- Eyes, Fatigue of, 197.
- Fatigue of the eyes, 197.
- Fellows, Election of, xvii; Nomination of, xvi.
- Ferns and fern allies, 62.
- Ferns of China, 62.
- Ferruginous beds, Weathering of, 163.
- Ficht, F. A., on Indiana Noctuidae, 243.
- Fisher, M. L., on The readmitted student, 198.
- Fordice, Morton W., Memorial, 2.
- Fossil pollen, 63.
- Friesner, Ray C., on Ferns and fern allies, 62; Growth of *Quercus*, 63.
- Frog, Embryology of, 209.
- Fungal cultures, 69, 75.
- Gamma and beta rays in radioactive substances, 180.
- Garner, Murvel R., et al, on Limnological survey of Dewart Lake, 201.
- General session, Minutes of, xvii.
- Geology and Geography, Divisional Chairman for 1940, xvii; Section on, 118-175.
- Glacial lakes of Indiana, 131.
- Grasses of Indiana, 73.
- Gross, George C., et al, on Bacteriostatic properties of acids, 42.
- Guernsey, E. Y., on The atlatl, 17.
- Guthrie, A., et al, on A low voltage arc in a magnetic field, 185.
- Hale, Doris M., et al, on Effects of cigarette smoking, 199.
- Half-lives of artificial radioactivity, 180.
- Hamp, Frank A., on Fossil pollen, 63.
- Hancock, J. O., et al, on A low voltage arc in a magnetic field, 185.
- Hartman, R. J., et al, on Enzymatic action, 105.
- Headlee, William H., on Intestinal parasites, 227.
- Helmholtz resonators, Conductivity in, 182.
- Henderson, W. J., et al, on Alpha particle bombardment of magnesium, 191.
- Herpers, Henry F., et al, on Calcareous incrustation, 169.
- Hickman, C. P., et al, on The mammalian adrenal cortex, 202.
- Hiestand, W. A., et al, on Effects of cigarette smoking, 199; Respiratory movements during egg laying in the hen, 231; Temperature regulation in the chicken, 200.
- Home economics, Education in, 197.
- Hufford, M. E., et al, on The Schwarzschild equation, 181.
- Human parasites, 199.
- Indian mounds, Excavation of, 22.
- Indiana: Bryology of, 64; Dragonflies of, 201; Grasses of, 73; Insects of, 201, 243; Plants of, 89; Soils of, 151.
- Indiana University cyclotron, 179.
- Industry, Psychology in, 197.
- Insects of Indiana, 201, 243.
- Integration of differential equations, 177.
- Interpolation method for unsmooth curves, 175.
- Intestinal parasites, 227.
- Isoetes Engelmanni*, Spore of, 63.
- Jamieson, W. A., on Biological research, 41; et al, on Sulfo-Merthiolate, 45.
- Johnson, Joy D., et al, on Radiation of *Drosophila*, 215.
- Junior Academies, List of, xxi.
- Junior Academy, Exhibits of, xx; Honorary Memberships, xix; Officers for 1939, xviii; Officers for 1940, xix; Program of, xviii; Report on, xvi.
- Kanning, E. W., et al, on Adsorption, 94.
- Kelly, E. Lowell, on Marital compatibility, 197.
- King, L. J., on John Thomas Plummer, 62.
- Kinietz, Vernon, on Chippewa records, 38.
- Konopinski, E. J., on Beta spectra, 180; et al, on Half-lives of artificial radioactivity, 180.
- Kriebel, Ralph M., on *Quercus ellipsoidalis*, 62.
- Kurie, Franz N. D., on the Indiana cyclotron, 179.

- Lakes of Indiana, 131.
 Lanczos, C., on A simple interpolation method for unsmooth curves, 175.
 Langer, L. M., et al, on Beta and gamma rays, 180.
 Lark-Horovitz, K., et al, on X-ray diffraction in amorphous rubber, 181.
 Lenape dialect, 34.
 Library Committee, Report of, xiv.
 Lilly, Eli, on The Walum Olum, 32.
 Limnological survey of Dewart Lake, 201.
 Lizard, Anatomy of, 233.
 Long, Alma, on Education in home economics, 197.
 Lott, A. V., on The earth's rotation, 119.
 Low voltage arc in a magnetic field, 185.
- McDaniel, P. W., et al, on Beta and gamma rays, 180.
 Magnesium, Alpha particle bombardment of, 191.
 Magnetic field, Low voltage arc in, 185.
 Mammals, Adrenal cortex of, 202.
 Marital compatibility and personality traits, 197.
 Martin, W. E., on The life cycle of *Monorchoides*, 199.
 Mason, Harry, on Teachers' and pupils attitudes, 196.
 Mason, Thomas E., Memorial, 3.
 Mathematics, Divisional Chairman for 1940, xvii; Section on, 175-178; Teaching of, 175, 176.
 Members, List of, xxiv.
 Membership committee, Report of, ix, xiv.
 Membership lists, Note on, vi.
 Memorials, 1-5.
 Miller, Dorothy C., on Embryology of the frog, 209.
 Minerals of the Upper Cambrian of Wisconsin, 145.
Miranda aurantia, 201.
 Mitchell, A. C. G., et al, on Beta and gamma rays, 180.
 Mitten, Arthur G., Memorial, 3.
Mornorchoides, Life cycle of, 199.
 Montgomery, B. E., on Indiana dragonflies, 201.
 Morris, Inez, on Teaching of mathematics, 175.
 Morris, Markland, et al, on Limnological survey of Dewart Lake, 201.
 Moths of Indiana, 243.
 Mounds, Indian, Excavation of, 22.
 Munsee dialect, 34.
- Necrology, 1.
 New Harmony, Meeting at, x.
 New Members, List of, xxiv.
 Nicotine in tobacco, 91.
 Noble, Thomas B., Address by, 16.
- Noctuidae of Indiana, 243.
 Nominating committee, Report of, xvi.
- Officers for 1939, vii; for 1940, Election of, xvii.
 Ostrander, A. R., on Minerals of the Upper Cambrian, 145.
 Ottawa, Ethnology of, 23.
 Overman, R. R., et al, on The mammalian adrenal cortex, 202.
- Parasites, Human, 199.
 Parasitism, 6; Intestinal, 227.
 Parker, Dorothy, on *Isoetes*, 63.
 Parshall, C. M., et al, on X-ray diffraction in amorphous rubber, 181.
 Pennsylvanian of Indiana, 163.
 Personality traits and marital compatibility, 197.
 Photographic determination of chemiluminescences, 115.
 Physics, Divisional chairman for 1940, xvii; Section on, 179-195.
 Plants of Indiana, 89.
 Plummer, John Thomas, A pioneer botanist, 62.
 Porter, C. L., on Fungal cultures, 69, 75.
 Potzger, J. E., on Indiana grasses, 73.
 Powell, H. M., et al, on Sulfo-Merthiolate, 45.
 Presidential address, 6.
 Press Secretary, Report of, xv.
 Program committee, Report of, ix.
 Prussian blue, Adsorption of, ix.
 Psychology, Chairman of Division on, x; Divisional Chairman for 1940, xvii; in industry, 197; Section on, 196-198.
 Pteridophytes of China, 62.
 Purcell, G. J., et al, on Acoustical properties of wood, 179.
- Quercus ellipsoidalis*, 62.
Quercus velutina, Growth of, 63.
- Radiation of *Drosophila*, 215.
 Radioactive substances, Gamma and beta rays in, 180.
 Ramsey, Helen J., et al, on Effects of cigarette smoking, 199.
 Randall, W. C., et al, on Respiratory movements during egg laying in the hen, 231; on Temperature regulation in the chicken, 200.
 Reeves, John L., Memorial, 4.
 Research Committee, Report of, ix, xv.
 Resolutions Committee, Report of, xvii.
 Respiratory movements during egg laying in the hen, 231.
 Response, Patterns of, 196.

- Reynolds, Albert E., on Anatomy of *Eumecurus*, 233.
- Rifenburgh, S. A., et al, on Radiation of *Drosophila*, 215.
- Rotation of the earth as a deflective factor, 119.
- Rubber, X-ray diffraction in, 181.
- Rumple, O. E., et al, on Enzymatic action, 105.
- Routien, John B., on Agaricaceae, 84.
- Samson, R. W., on Virus diseases of tomato, 77.
- Schwarzschild equation, 181.
- Shreve, D. R., on Cubic hypersurfaces, 175.
- Shrock, Robert, et al, on Calcareous incrustation, 169.
- Shrock, Robert R., on Weathering of ferruginous beds in Indiana, 163.
- Soils of Indiana, 151.
- Spring meeting, Minutes of, x.
- Sun spots and temperature, 159.
- Swope, Ammon, on Aeronautical training, 196.
- Sulfo-Merthiolate as a germicide, 45.
- Systematic Botanists, Meetings of, xxiii.
- Taxonomists, Meeting of, xxiii.
- Teaching of mathematics, 175, 176.
- Temperature and sun spots, 159.
- Temperature regulation in the chicken, 200.
- Tetrault, P. A., et al, on Bacteriostatic properties of acids, 42.
- Thornbury, W. C., on Lakes of Indiana, 131.
- Tiffin, Joseph, on Psychology in industry, 197.
- Tobacco, Nicotine in, 91.
- Tomato, Virus diseases of, 77.
- Treasurer, Report of, ix, xv.
- Trematodes, Egg production in, 200.
- Tryon, R. M., on Indiana plants, 89.
- Tussing, Lyle, on Fatigue of the eyes, 197.
- Unsmooth curves, Interpolation method for, 175.
- VanLone, Eldyn E., Memorial, 5.
- Virus diseases of tomato, 77.
- Visher, S. S., on Weather and crop yields, 118.
- Voegelin, C. F., on Indian languages, 34.
- Voegelin, Erminie W., on The Walam Olum, 28.
- Vonnegut, Bernard, et al, on Calcareous incrustation, 169.
- Walam Olum, Cultural parallels to the, 28.
- Walker, Martha, et al, on Radiation of *Drosophila*, 215.
- Walum Olum, 32.
- Ward, Helen L., on Human parasites, 199.
- Weather and crop yields, 118.
- Weathering of ferruginous beds in Indiana, 163.
- Weer, Paul, on Ethnology of the Ottawa, 23.
- Welch, Winona H., on Indiana bryology, 64.
- Wenninger, Francis, on *Miranda aurantia*, 201.
- Wheeler, N. C., et al, on Respiratory movements during egg laying in the hen, 231.
- Winter meeting, Program of, xii.
- Wolf, Irvin S., on Patterns of response during conditioning, 196.
- Wood, Acoustical properties of, 179.
- Wood, Glen, et al, on Limnological survey of Dewart Lake, 201.
- X-ray diffraction in amorphous rubber, 181.
- Yunker, T. G., on Parasitism, 6; Presidential address of, 6.
- Zoology, Divisional Chairman for 1940, xvii; Section on, 199-253.
