John O. Whitaker, Jr.	Indiana State University	Terre Haute, IN

INDEX

PROCEEDINGS OF THE INDIANA ACADEMY OF SCIENCE VOLUME 103 (1-2 AND 3-4)

- Acer*
 negundo, 196
 rubrum, 226, 234
 saccharinum, 196, 208, 226
Acid anhydrides, hydroxamic acid test for, 40, 42
Acid-base characteristics of organic functional groups, test for, 36
Acid group, tests for organic compounds in the, 42
Acid mine drainage, 134
Act S. 176 creates the Division of Nature Preserves, 66
Advanced Revelation-Based Indiana Fish and Wildlife Information System, 219
Agricultural wastewater treatment using wetlands, 190
Agrostis perennans, 28, 29, 30
Alcohols
 ceric nitrate reagent test for, 38
 chromic acid oxidation of, 37
 Lucas test for primary, secondary, and tertiary, 38
Aldehydes
 chromic acid oxidation of, 37
 2,4-dinitrophenylhydrazine test for, 39
Alfred Charles Kinsey as an Entomologist, 79
Alkyl amines, use of the Rimini test to identify primary, 43
Allen, Durward L., 65
Allen County, origin and hydrogeologic significance of wetlands in, 147
Amblystegiaceae, 229
Ambystoma
 jeffersonianum, 74
 laterale, 74
 texanum, 183
 tigrinum tigrinum, 183
Amendments, discussion of, 121
American cranberry, 234, 238
American elm, 196
Amides, hydroxamic acid test for, 40
Amines
 citric acid-acetic anhydride solution used to identify tertiary, 44
 identification of aromatic, 43
 use of an ammoniacal solution to identify secondary, 44
Ammoniacal solution used to identify secondary amines, 44
Ammonia-N concentrations in the Wabash River, 210
Amphibians
 species listed as threatened, endangered, or of special concern in Indiana, 184
 type localities in Indiana for, 72
Anas
 discors, 185
 platyrhynchos, 186
Andromeda glaucophylla, 234
Anheteromeyenia, 229
Apalone
 mutica, 73
 spinifera, 73
Aquatic Gap Analysis, 218
Arcata, California, constructed wetland at, 189
Aromatic amines, identification through the formation of an arylazonaphthol of a primary, 43
Aronia melanocarpa, 236
Arylazonaphthol, its formation used to identify primary aromatic amines, 43
Ash, white, 196
Aulacomnium palustre, 237
Axolotl Facility at Indiana University, 75
Baeyer test for unsaturated hydrocarbons, 41
Bank stabilization by riparian wetland plants, 209
Barnes, William B., 65, 66
Barrett, James M., III, 66
Basic group, test for organic compounds in the, 43
Bat, big brown, 93
 maternal colonies of, 93
 rainfall, its effect on weight gain of, 97
 temperature, its effect on weight gain of, 97
Bat thermoregulation, 99
Beach ridge formation on Lake Michigan, 175
Beall Woods (now Beall Woods State Park), Illinois, 196
Bear Lake, Noble County, 228, 230
Beaver, 184
Bedrock in Marion County, 56, 59
 as the controlling agent of soil radon levels, 60
Beetles, dytiscid, 237
Benthic macroinvertebrates in small- and medium-sized streams, 205
Beyond the Limits, 89
Bibliography of A.C. Kinsey's work on insects, 81, 82
Big brown bat, 93
 maternal colonies of, 93
 rainfall, its effect on weight gain of, 97
 temperature, its effect on weight gain of, 97
Big Raccoon Creek, 197
 fish communities of, 210
 quality of the wetland border along, 203
Big Walnut Creek, 197
 fish communities of, 210
 quality of the riparian border along, 203
Biodepletion, 133
Biodiversity
 definition of, 216
 ecosystem diversity as a measure of, 217
 gamma diversity as a measure of, 217
 landscape analysis as a measure of, 217
 species diversity as a measure of, 216
Biofilters, 187

- Biogeochemical cycles in a wetland, 181
Biological Aspects of Restored and Created Wetlands, 179
 Biological limits to human population growth, 90
 Bioreactors, fixed-film, 188
 Bioreserve Gap Analysis Metaproject, 220
 Blackjack oak, 29
 Black willow, 196
 Blatchley, Willis S., 73
 Block, Ethyle B., 68
 Blueberry, high-bush, 236
 Blue River Gap Analysis Metaproject, 220
 Blue-winged teal, 185
 Blum, J.L., 1
 Bog rosemary, 234
 Bogs on thick, clayey till, 163
 Boneham, R., 53
 Borden Group, 57
 Bottomland forests, 196
 Boxelder, 196
Branta canadensis, 184
 Breeding waterfowl, 184
 Broadman, Robert, 75
 Brookston Soil Series, 54
 Brown, Dennis, 75
 Brown mosses, 229
 Bulrush, softstem, 190
 Burr, Irving W., 65
 Bush, President G., 144
- Caldwell, Lynton K., 65
Calliargon trifarium, 229
 Calumet Beach, 172
 Canada goose, 184, 186
 Canada mayflower, 236
 Canright, James, 65
 Carboxylic acids, use of potassium iodide and potassium iodate to identify, 43
Carex trisperma, 238
 Carlson, Reynold, 65
 Carson, Rachel, 68
 Carter, President Jimmy, 89
 Cartwright, A., 93
 Cartwright, Spencer, 75
Carya, 27
 laciniosa, 27
 ovata, 27
 tomentosa, 27
Castor canadensis, 184
 Cattail, 190
 Cave salamander, 73
 Cedar Creek Canyon, 151
 Ceric nitrate reagent test for alcohols and phenols, 37, 42
Chamaedaphne calyculata, 234
 Chantransia of
 Lemanea, 23
 Paralemanea, 6, 7, 23
 Charter members of the Indiana Chapter of The Nature Conservancy, 65
Chemical Characterization of Organic Functional Groups: An Experiment for the Advanced High School Chemistry Laboratory, 33
 Chokeberry, 236
 Chromic acid oxidation of alcohols and aldehydes, 37
 Chrysophytes, 237
 Cinnamon fern, 237
 Citric acid-acetic anhydride solution to identify tertiary amines, use of, 44
 Civilian Conservation Corps, 74
Cladonia strepsilis, 29
 Clark, F., 215
 Clean Water Act, 145
 Clinton, President W., 144
 Club moss, shining, 237
 Club of Rome, 87
 Coal waste, 134
 Commons, exploitation of the, 87
 Conservation Reserve Program, 222
 Constructed wetlands
 as wastewater treatment systems, 182, 186
 EPA database of, 189
 Contaminants, use of Gap Analysis to identify, 221
 Contaminated groundwater, 134
 Cooper, William E., 75
 Cork elm, 196
 Cottingham, J.O., 64
 Cottonwood, 196, 207
 along small streams, 205
 Council Minutes for 4 November 1993, 99
 Council on Environmental Quality, 89
 Court Creek, Illinois, 207
 Cracking in limestone exposed to uniaxial loading, 49
 Cranberry
 American, 234, 238
 small, 234
 Created wetlands, 179, 182, 186
 Criteria for recognizing wetlands, 180
 Crosby-Brookston Soil Association, 53
 Crosby-Miami Soil Series, 54
 Crosby Soil Series, 54
 Croteau-Hartman, M.R., 179
Cryptobranchus alleganiensis alleganiensis, 183
 Curve
 uniaxial stress-volumetric strain, 47, 49
 volumetric strain, 49
Cyclura, 75
 Cynipidae, 79
Cynips, 80
Cypripedium acaule, 234, 237
- Danthonia spicata*, 28
 Deconstruction of buildings, 135
 Deep marsh zone of an emergent wetland, 180
 Deer, Indiana Academy of Science resolution concerning white-tailed, 127
 Deer Creek
 fish communities of, 210
 quality of the riparian border along, 203
 Definition of the term "wetland," 180
 Deglaciation, style of, 160
 Delaware County, bats in, 93
 Delleur, J.W., 139
 Dennis, W.D., 65
 Depressional wetlands
 on sand, gravel, and sandy till-like sediments, 152
 on thick, clayey till, 152
 Des Plains River Wetland System, 190
 Determining the relative age of groundwater, 158
 Diatoms in the Wabash River, 210

- 2,4-Dinitrophenylhydrazine test for aldehydes and ketones, 40
- Diospyros virginiana*, 28
- Division of Nature Preserves, formation of, 63, 66
- Dolan, R.W., 25
- Dolph, G.E., 85
- Domestic waste, 187
- Drainage of wetlands, 160
- Drainage within the Hometown interlobate area, 155
- Drumm, R.L., 93
- Ducks Unlimited, 145
- Dunham, David H., 65
- Dustin, Jane, 68
- Dustin, Thomas E., 66, 68
- Duval, Julian, 75
- Dytiscid beetles, 237
- Eastern tiger salamander, 183
- Ecologists Union, 63
- Ecosystem diversity as a measure of biodiversity, 217
- Edgren, Richard, 74
- Eel River Valley, 151
- Eel Soil Series, 54
- Effect of isolation on wetland habitats, 185
- Effect of wetland drainage on groundwater recharge, 160
- Effects of a Prescribed Burn on Tree- and Herb-Layer Vegetation in a Post Oak (Quercus Stellata) Dominated Flatwoods*, 25
- Effects of Rainfall and Temperature on Weight Gain in the Big Brown Bat, Eptesicus Fuscus*, 93
- Efroymsen, Clarence W., 68
- Eggerding, Milfred, 65
- Electing Academy Officers, steps in, 128
- Eleocharis tenuis* var. *verrucosa*, 28
- Elm
American, 196
cork, 196
red, 196
- Embaras River, Illinois, 207
- Endangered Species Act, 217
- Engineering activities to reduce agricultural pollution, 211
- Environmental Law Institute, 221
- Environmental Protection Agency, database on constructed wetlands, 189
- Environmental responsibility, 131
- Eptesicus fuscus*, 93
maternal colonies of, 93
rainfall, its effects on weight gain of, 97
temperature, its effects on weight gain of, 97
- Erechtites hieracifolia*, 29, 30
- Erie Lobe, 151, 161, 226
- Esters, hydroxamic acid test for, 40
- Eurycea lucifuga*, 73
- Evolution of Environmental Responsibility...An Engineering View*, 131
- Ewert, Michael, 75
- Executive Committee Minutes
4 November 1993, 109
5 February 1994, 112
29 April 1994, 116
- Exotic species, resolution concerning, 107
- Exploration Activities for a high school organic chemistry laboratory, 35
- acid-base characteristics of organic functional groups, 36
- ceric nitrate reagent test for alcohols and phenols, 38
- chromic acid oxidation of alcohols and aldehydes, 37
- 2,4-dinitrophenylhydrazine test for aldehydes and ketones, 39
- ferrox test for the presence of oxygen, 36
- hydroxamic acid test for amides, acid anhydrides, and esters, 40
- Lucas test for primary, secondary, and tertiary alcohols, 38
- tests for neutral compounds that give a negative ferrox test, 41
- tests for organic compounds in the acid group, 42
- tests for organic compounds in the basic group, 43
- Factors that affect the nature of water movement through peat, 157
- Famine 1975!*, 86
- Fatigue behavior of limestone, 47, 51
- Fell, Barbara (Garst), 64
- Fell, George B., 63, 64
- Fens situated on saturated sand and gravel, 164
- Fern, cinnamon, 237
- Ferrox test for the presence of oxygen in organic molecules, 36
- Fibrous peat, 157
- Figitidae, 79
- Fire
effects of, 25
fire-adapted communities in eastern North America, 31
herb-layer composition and cover at Post Oak Barrens Nature Preserve after, 28
tree-layer mortality and resprouting at Post Oak Barrens Nature Preserve after, 28
tree-layer stand structure and diversity at Post Oak Barrens Nature Preserve after, 28
- Fire weed, 29, 30
- Fish communities in Big Raccon, Deer, and Big Walnut Creeks, 210
- Fixed-film bioreactors, 188
- Flatwoods, post oak, 25
- Fleming, A.H., 147
