

INDEX

to the

PROCEEDINGS OF THE INDIANA ACADEMY OF SCIENCE

Volume 113

2004

Abandoned mining areas	140	Chinook salmon	133
Acari	26	Chiroptera	89, 151
Allen, Joseph	162	Clupeidae (herrings)	45
<i>Ambystoma talpoideum</i>	147	Colonies (bats)	60
Amphibians	53, 55	Colubridae	57
Anura	56	Conservation	53, 140
Anuran habitat	140	Cortinariales	105
Artiodactyla	92	<i>Corynorhinus rafinesquii</i>	76
Arvicolinae	91	Cottidae (sculpins)	49
Ascomycetes	102	County records (vascular plants)	1
Atherinidae (silversides)	49	Coyotes	91
Atractiellales	104	Crane Indiana	66
Auriculariales	104	Crawford County	77
Autumn swarming (bats)	78, 81	Cypress swamp (Twin Swamps)	21
Badger, Kemuel	1, 7	Cyprinidae (minnows)	45
Bald cypress	17	Dacrymycetales	105
Bandoli, James	115	Darters	115
Basey, Gary	7	Deer	92
Basidiomycetes	99	Delaware County flora	1
Bats	60, 66, 76, 151	Delaware County	99
Bauer, William	109	<i>Dendroica cerulea</i>	162
Beavers	90	Developmental stages (fish)	123
Behavior (fish)	115	Didelphidae (opossums)	87
Big Oaks NWR	7, 162	Didelphimorphia	87
Big brown bat	73, 77, 84, 154	Dipodidae	91
Biodiversity	7	Dogs	91
Biological diversity of lakes	33	Dorsal fin knob (fish)	115
Biological condition of lakes	33	Dubois County	77
Boletales	104	Duchamp, Joseph	53
Botany Glen	3	Eastern pipistrelle	60, 73, 77, 82, 158
Brack, Virgil	66, 76, 151	Edwards, Dale	26
Breeding tubercle	115	Emydidae	57
Brown County	77	<i>Eptesicus fuscus</i>	66, 77
Bufonidae	56	<i>Etheostoma squamiceps</i>	115
Burr, Brooks	123	Evening bat	76, 85, 157
Caliciales	102	Everson, Brianne	42
Camp Windigo	99	Extirpations (fish)	40
Canidae	91	Feeding bouts (warblers)	162
Cantharellales	104	Female choice (fish)	115
Carnivora	91	Field vegetation (Twin Swamps)	19
Castoridae (beavers)	90	Financial report	98
<i>Catnotus</i>	115	Fire management	7
Catostomidae (suckers)	47	Fire-managed grasslands	7
Caudata	55	Fish assemblages	33
Centrarchidae (blackbass & sunfish)	49	Fish community	42
Cerulean warblers	162	Fish management	133
Cervidae	92	Fish distribution	42
Chelydridae	57	Flora of Posey County	17

Fogwell Forest Nature Preserve	3	Limnology	33
Food habits (bats)	66, 68, 69	Little brown myotis	72, 77, 84, 156
Foster, B. Jagger	42, 53	Low, wet woods (Twin Swamps)	19
Foxes	91	Low, dry woods (Twin Swamps)	20
Frogs	140	Lycoperdales	105
Ganodermatales	105	MacGowan, Brian	147
Gender differences (warblers)	162	Macromycetes	99
Geomyidae (pocket gophers)	90	Magnoliophyta (flowering plants)	4, 21
Ginn Woods	1, 3, 99	Mammals	87
Gophers	90	Manual removal (fish)	109
Gordon, Scott	17	Marion County	54, 153
Grand Calumet River	133	Mark, Rick	17
Grassland community	7	Martin County	77
Gray myotis	76, 85	Mephitidae	92
Great Lakes States foray	99	Meretsky, Vicky	140
Great Lakes	133	Mice	90, 91
Greil, Roger	109	Mining	140
Ground layer vegetation	14	Minutes of IAS meetings	94
Growth (fish)	109	Mist-netting	152, 154
Habitat (bat)	66	Mitigation wetlands	58
Habitat use	140	Mitosporic fungi	107
Habitats (Twin Swamps)	18	Mole salamander	147
Hatching (water mite)	26	Moles	89
Hendricks County	44, 54, 153	Monroe County	77
Hericiales	105	Morera, Deborah	115
Henry County	99	Morgan County	44, 54, 153
Herbaceous plants	17	Morphology (salamander)	147
Herpetology	53	Morris, Charles	33
Hibernacula	63, 68	Mounds State Park	3
High dry woods (Twin Swamps)	20	Muridae (mice)	90, 91
High temperature effects (mites)	26	Mushrooms	99
Hoary bat	74, 77, 85, 158	Mustellidae	91
Hoosier National Forest	76	<i>Myotis lucifugus</i>	66, 77
Hylidae	56	<i>Myotis sodalis</i>	66
Hymenochaetales	105	<i>Myotis grisescens</i>	76
Hypercreales	102	<i>Myotis septentrionalis</i>	66, 77
Ictaluridae (catfish)	47, 123	<i>Myotis austroriparius</i>	76
Index of biological integrity	42	Natricidae	57
Indiana myotis	70, 76, 84, 156	Natural history data (salamander)	147
Indianapolis International Airport ...	42, 53, 151	Naval Surface Warfare Center	66
Insectivora	88	Newton County	87
Islam, Kamal	162	Nidulariales	105
Jackson County	77	Northern myotis	66, 72, 77, 82, 155
Jefferson County	163	<i>Noturus flavus</i>	123, 124
Jennings County	163	<i>Noturus exilis</i>	123, 125
Lagomorpha	89	NSWC Crane	66
Lake Michigan	133	<i>Nycticeius humeralis</i>	76
Lake condition assessment	33	Orange County	77
Landscape management	140	Ostrand, Kenneth	109
<i>Lasionycteris noctivagans</i>	67, 77	Overstory vegetation	15
<i>Lasiurus borealis</i>	67, 77	Parental investment (warblers)	162
<i>Lasiurus cinereus</i>	67, 77	Parental feeding effort	162
<i>Lasiurus seminolus</i>	76	Peine, Alex	133
Lawrence County	77	<i>Perca flavescens</i>	109
Lecanorales	102	Percidae (darters)	49
Leotiales	102	Pezizales	102
Lepisosteidae (gars)	45	pH tests (water mite)	28
Leporidae (rabbits and hares)	89	pH effects (mites)	26
Life history (fish)	123	Pike County	141

Pipistrelle bats	60	Smith, James	133
<i>Pipistrellus subflavus</i>	60, 66, 77	Sodalis Woods	153
Plant communities	7	Soldier Lake	110
Plethodontidae	56	Soricidae (shrews)	88
Poeciliidae (livebearers)	47	Southeastern myotis	76
Polypodiophyta (ferns)	4, 21	Sparks, Dale	42, 53, 133, 151
Population structure (fish)	109	Spatial distribution (fish)	133
Poriales	105	Species richness (frogs)	142
Porter County	33	Spottail darter	115
Posey County	17, 148	Spring staging (bats)	78, 81
Predators on frogs	143	Squirrels	89
Pregnancy (bats)	62	Stereales	107
Procyonidae	91	Stewart, Paul	133
Protosteliales	107	Stocking (fish)	133
Pruitt, Scott	76	Stonecat	123, 124
Rabbits	89	Sullivan County	141
Racoons	91	Summer netting (bats)	78
Radio-telemetry	68, 76	Survival (water mite)	26
Radio-tracking (bats)	152	Sutton, Trent	109
Rafinesque's big-eared bat	76	Talpidae (moles)	89
Ranidae	57	Telemetry	68, 76, 80, 152
Reclaimed mining areas	140	Thermal tests (water mite)	28
Red bat	74, 77, 82	Timm, Anne	140
Reidy, Chris	1	Torke, Byron	1
Reproduction (bats)	60	Tree-roosting bats	60
Reptiles	53, 57	Tremellales	107
Retaining ponds	58	Trionychidae	57
Rhythmatales	103	Twin Swamps Nature Preserve	17
Ripley County	163	Understory vegetation	15
Ritzi, Christopher	42	<i>Unionicola foili</i>	26
Robertson, Robert	33	Unionicolidae	26
Rodentia	89	Urban herpetology	53
Roosts (bats)	151	Urban ichthyology	42
Rothrock, Paul	1	Urban ecology	42
Ruch, Donald	1, 99	Urbanization	42, 53
Russulales	106	Valparaiso chain of lakes	33
Salamander	147	Vascular plant records	1
<i>Schilbeodes</i>	123	Veilleux, Jacques	60
Schizophyllales	106	Veilleux, Sherry	60
Sciuridae (squirrels)	89	Vespertilionidae (mouse-eared bats)	89
Sclerodermatales	107	Voles	91
Seminole bat	76	Walls, Michael	115
Serpentes	57	Water mite	26
Sheets, Jeremy	42	Water quality standards	133
Shrews	88	Weasels	91
Sigmodontinae	90	Whitaker, John	66, 76, 87, 151
Siluriformes	123	White Lick Creek	44, 54, 160
Silver-haired bat	74, 77, 86, 158	Wilbur Wright FWA	3, 99
Simon, Thomas	33, 123, 133	Williams, Rod	147
Size structure (fish)	109	Willow Slough FWA	87
Skunks	92	Winter hibernation (bats)	78, 82
Slender madtom	123, 125	Yellow perch	109
		Zapodinae	91

INSTRUCTIONS TO AUTHORS

(revised October 2001)

General information.—Manuscripts and all correspondence should be sent to the Editor. To be eligible for publication in the *Proceedings*, at least one author must be a member of the Academy. Papers that have been presented at an Academy meeting may be given preference for publication. Submission of a manuscript to the Editor implies that it has not been sent to another publication, nor has it been published elsewhere. If it is accepted for publication in the *Proceedings*, it may not be republished without the written consent of the Academy.

All manuscripts are evaluated by referees. Submit three copies of the manuscript. Figures in manuscripts for review may be submitted as photocopies, and they should be approximately the size that they will be printed in the *Proceedings*.

After the manuscript has been accepted, the author will be asked to submit the manuscript as a paper copy and on a computer disc in a widely-used word processing program. Indicate clearly on the computer disc the **word processing program** and the **type of computer** (Mac or PC).

Galley proofs will be sent to the primary author for approval and correction.

Style.—Do not use right or full justification. Also, use a non-proportional font (e.g., Courier, but not Times Roman).

Title page.—The title page should include (1) the title in capital letters, (2) each author's name and address, (3) the running head (see below), and (4) the complete name, address, and telephone number of the author with whom proofs and correspondence should be exchanged, a FAX number and electronic mail address if available.

Abstract.—All manuscripts have an abstract, which should summarize the significant facts in the manuscript. The "ABSTRACT" heading in capital letters should be placed at the beginning of the first paragraph set off by a period. Use complete sentences, and limit the abstract to one paragraph and 250 words.

Keywords.—Give 3–5 appropriate keywords following the abstract.

Text.—Double-space text, tables, legends, etc. throughout. Three categories of headings are used. The first category (METHODS, RESULTS, etc.) is typed in capitals, centered, and on a separate line. The second (lower) category of heading, in bold type, begins a paragraph with an indent and is separated from the text by a period and a dash. (This paragraph begins with an example of this heading.) The third heading category may or may not begin a paragraph, is italicized and followed by a colon. (The paragraph below is an example.) Use only the metric system unless quoting text or referencing collection data.

Citation of references in the text: Cite only papers already published or in press. Include within parentheses the surname of the author followed by the date of publication. A comma separates multiple citations by the same author(s) and a semicolon separates citations by different authors, e.g., (Smith 1990), (Jones 1988; Smith 1993), (Smith 1986, 1987; Smith & Jones 1989; Jones et al. 1990).

Literature cited section.—Use the following style, and include the full unabbreviated journal title. Repeat the name for multiple references by the same author. Note that book titles have the first letter of each word capitalized.

Walter, J. & B. Hallet. 1979. Geometry of former subglacial water channels and cavities. *Journal of Glaciology* 23:335–346.

Walter, J. 1992. The significance and complexity of communication in moths. Pp. 25–66, *In* Insect Communications: Mechanisms and Ecological Significance. (P.N. Work & J.S. Rivers, eds.). Princeton University Press, Princeton, New Jersey.

Footnotes.—Footnotes are permitted only on the first printed page to indicate current address or other information concerning the author. These are placed together on a separate page at the end of the manuscript. Tables and figures may not have footnotes.

Running head.—The author's surname(s) and an abbreviated title should be typed all in capital letters and must not exceed 60 characters and spaces. The running head should be placed near the top of the title page.

Tables.—These should be typed double-spaced, one table to a page and numbered consecutively. Most tables contain only three horizontal lines (see recent issues for examples). Do not use vertical lines or shading. Include all pertinent information in the table legend (no footnotes).

Illustrations.—All art work must be camera-ready (mounted and labeled) for reproduction. Figures should be arranged so that they fit (vertically and horizontally) the printed journal page, either one column or two columns, with a minimum of wasted space. When reductions are to be made by the printer, pay particular attention to width of lines and size of lettering in line drawings. Multiple photos assembled into a single plate should be mounted with only a minimum of space separating them. In the case of multiple illustrations mounted together, each illustration must be numbered Fig. 1, Fig. 2, etc.) rather than given letter (A.B. etc.) designations. The name(s) of author(s), and an indication of top edge, and whether the illustration should be one or two columns wide, should be written on the back of the illustration. The overall dimensions should be no more than 11 inches (28 cm) × 14 inches (36 cm). Larger drawings present greater difficulty in shipping and greater risk of damage for which the *Proceedings* assumes no responsibility. In manuscripts for review, photocopies are acceptable, and should be reduced to the exact measurements that the author prefers in the final publication. Make notations in the text margins to indicate the preferred position of illustrations in the printed text. Color plates can be printed; but the author must assume the full cost, currently about \$600 per color plate.

Legends for illustrations should be placed together on the same page(s) and separate from the illustrations. Each plate must have only one legend, as indicated below:

Figures 1–4.—Right chelicerae of species of *Centruroides* from Timbuktu. 1. Dorsal view; 2. Prolateral view of moveable finger; 3. *Centruroides* holotype male; 4. *Centruroides* male. Scale = 1.0 mm.

Page charges and reprints.—There are no page charges for members of the Academy. Corrections in proof pages must be restricted to printer's errors only; all other alterations will be charged to the author (currently \$3 per line).

Reprints are available only from the Allen Press and should be ordered (with payment) when the author receives the proof pages. Allen Press will not accept reprint orders after the paper is published.

CONTENTS

Proceedings of the Indiana Academy of Science

Volume 113

Number 2

2004

Botany

- Recent macromycetes records from three east-central Indiana counties**
by Donald G. Ruch 99

Zoology

- Changes in population structure of yellow perch following manual removal** by William F. Bauer, Trent M. Sutton, Roger W. Greil and Kenneth G. Ostrand 109
- Incipient second dorsal fin egg mimics in the spottail darter, *Etheostoma squamiceps*?** by James H. Bandoli, Deborah C. Morera, and Michael L. Walls 115
- Description of developmental stages of the stonecat, *Noturus flavus* and the slender madtom, *Noturus exilis* (Siluriformes: Ictaluridae)** by Thomas P. Simon and Brooks M. Burr 123
- Implications of chinook salmon presence on water quality standards in a Great Lakes area of concern** by Thomas P. Simon, Paul M. Stewart, Daniel W. Sparks, Alex Peine, and James R. Smith 133
- Anuran habitat use on abandoned and reclaimed mining areas of southwestern Indiana** by Anne Timm and Vicky Meretsky 140
- Natural history data on the mole salamander (*Ambystoma talpoideum*) in Indiana** by Rod N. Williams and Brian J. MacGowan 147
- Bats of the Indianapolis International Airport area, 1991–2001** by John O. Whitaker, Jr., Dale W. Sparks and Virgil Brack, Jr. 151
- Gender differences in parental feeding effort of Cerulean Warblers at Big Oaks National Wildlife Refuge, Indiana** by Joseph Allen and Kamal Islam 162
- Index to Volume 113 (2004)** 166
